

GOLDFUND

AN INCENTIVISED GOLD ECOSYSTEM

GOLDFUND is a source of capital for mining and investment in precious metals and providing liquidity with transactable cryptocurrency coins and physical gold exchange.

How does GOLDFUND work?

Put simply GOLDFUND is enabling near term precious metals producers get into production by providing the capital they need. In return, GOLDFUND obtains a percentage of the Gold production at a cost much lower than market price.

What is the GFUN Coin?

Owning GFUN coins allows you to trade in Cryptocurrency on recognized Cryptocurrency Exchanges. GFUN coins are also used to buy discounted Gold produced by the GOLDFUND. You will be able to liquidate your GFUN coins by selling them on an Exchange or using them to purchase Gold at a discount price from our partner ZOMIA Gold Exchange.

Why choose GOLDFUND?

The best investment is one that does not decrease in value. Precious Metals continue to climb and their long term value has been reinforced for centuries. GOLDFUND.IO is a platform that allows the new digital currency to participate in proven infrastructure in a highly regulated public company environment.

GOLDFUND provides:

- Development capital for Proven Un-mined Gold Reserves
- Return of physical gold from precious metal production
- Exposure limited to participants in a Regulated and Audited marketplace
- A guaranteed discount on Gold Purchases made with GFUN coins
- Liquidity of GFUN coins on Cryptocurrency Exchanges

The GOLDFUND Ecosystem

Put simply, GFUN coins are purchased on participating exchanges. GFUN coins are tradeable just like any other Cryptocurrency, on recognized Cryptocurrency Exchanges. Owners of GFUN coins can purchase Gold with the GFUN coins on the ZOMIA Gold Exchange. Coin holders can exit in two ways: 1. By selling their GFUN coins on the Cryptocurrency Exchange, or 2. Purchasing discounted Gold with their GFUN coins.

The GOLDFUND ecosystem comprises of near term producers of Gold, and the funds raised from the Initial Coin Offer (ICO) will be used to assist near term Gold Producers into final production. The Gold produced will be returned to GOLDFUND at a discounted price, and be made available for purchase (of up to 30% below market pricing) with GFUN coins on the ZOMIA Gold Exchange.
